Last Call for Baseball:

Only a Few Box Seat Tickets Remaining

Friday night, June 14th, 2017, is the night to join your friends from the Facility Manager Association of New Mexico for an evening of baseball at “The Lab” as the Albuquerque Isotopes baseball team takes to the field against the Reno Aces. With only 35 seats available, make your reservation today, or be left out.

Your \$40.00 admission fee for members (\$45.00 for non-members) includes tickets to the game and a delicious, newly expanded gourmet ballpark buffet. Club seats and the open cash bar set the mood for the 7:05 pm first pitch, but plan to arrive at 6:00 pm to enjoy the food, friends, and ambiance. Ride the elevator at the third base line to the second level to join us in The Captain’s Corner.

Buy your tickets and pay with your credit card online at the website www.fmanm.com then contact Lori Gunnare at National Roofing (lori@natroof.com or call 505-980-2247) to pick up your tickets at 3408 Columbia Drive NE in Albuquerque BEFORE the event.

This is always a sell-out and replaces the monthly membership meeting. Invite your favorite facility manager for a great evening. Save your space today by going online to the Isotopes Baseball tab.

Skilled Labor Shortage and Causes Explored at May’s Meeting

BMembers and guests of the Facility Manager Association of New Mexico broke bread together and gained perspective on the perceived skilled labor shortage in May. “Open your eyes to the new generation,” was the advice from speaker Michael Rife, the Workforce Development Director for Safety and Health for the Associated General Contractors of New Mexico. His considerable industry background includes being a journeyman glazier, estimator, project manager, and safety professional.

Addressing the societal aspects of engaging and accommodating the future members of the workforce, Rife stressed the importance of the lost art of mentoring and how this one-on-one training guarantees the development of and the retention of

promising workers. “These young folks work differently than we do but there is real talent available if you are willing to figure out how best to tap into it.”

Rife educated the crowd on programs offered through ACG of NM to encourage and educate the present and future facility managers and engineers with a course of study on practical applications touching on building fundamentals such as HVAC systems, energy performance benchmarking, lighting efficiency, building controls, indoor environmental quality, and other opportunities for low-cost operational improvement. He can be contacted at mrife@agc-nm.org for more information on this educational opportunity called the Building Operators Certification program. Tuition reimbursement is available.
